

/ On the whole site you must comply with the Austrian Road Traffic Act (StVO) and with the mandatory speed limit.

/ Smoking is prohibited across all our sites, except in designated outdoor areas or atria.

/ Ask your Fronius contact person before leaving the visitor group.

/ Remain on marked footpaths/traffic routes.

/ Do not enter forbidden areas.

ACTIONS TO BE TAKEN IN AN EMERGENCY

/ Observe the two different fire alarm signals and follow the instructions of the fire safety team. The interrupted fire alarm indicates a possible fire and alerts the fire safety team. The permanent fire alarm initiates the evacuation. Please use the emergency exits and go directly to one of our assembly points.

/ In case of an accident or an environmental damage call our internal on-call-service (0664/6213800) and in case of imminent danger call directly the emergency services (122, 133, or 144). Our on-call-service prompts further actions. In case of fire use the fire alarm buttons to alert the fire brigade.

/ Leave the building by using the escape routes in case of danger. Help injured persons. Do not use any lift and close all doors behind you. Follow the instructions of the rescue and fire prevention staff.

/ Go directly to the assembly point and wait for further instructions. Report missed persons to the "Emergency Guides" at the assembly points.

/ In case of injuries you will find first aid kits in our buildings. Ask your Fronius contact person for our first responders which are available during the normal working hours.

/ Many Fronius sites provide an automatic external defibrillators (AED).

/ Our garages must be monitored for carbon monoxide. The warning system is going to call attention to this danger at the entrances. Leave the garage at once if the CO alarm is displayed or can be heard.

/ Perfect Welding

/ Solar Energy

/ Perfect Charging

SAFETY NOTES

/ for visitors

CONFIRMATION

/ for the given instruction
“Safety notes for contractors
and service providers”

NAME OF INSTRUCTED PERSON:

NAME OF INSTRUCTOR:

/ I do declare and confirm with my signature to have received and to have understood this safety instruction. Furthermore I undertake to implement these requirements and to comply with the Fronius safety rules.

Date:

Signature of instructed person:

PROCESS FOR THE FRONIUS CONTACT PERSON

/ You are responsible for the safety of the contractor resp. service provider. Therefore please pay attention to the following steps:

- 1 Visitors have to be accompanied at all times. Offside of our administrative areas they must be instructed at least once a year regarding this brochure. If needed an actual version of the parking rules has to be handed over.
- 2 By using the form above, the visitor has to confirm the receipt and understanding of these safety notes. This section remains with the Fronius contact person and has to be kept for at least one year.
- 3 Before leaving the site the visitor has to check out.
- 4 Make sure that in case of evacuation, your guests also go directly to one of our meeting points.

SAFETY NOTES

/ for visitors

/ Welcome to Fronius. This leaflet will help familiarize you with important safety rules and our code of conduct. Please be sure to follow these instructions. We wish you a pleasant and safe stay at our site.

ENTERING AND LEAVING THE COMPANY SITE

/ Please report to the reception or to your Fronius contact person after arriving on our site. The Fronius contact person will clarify this safety instruction. Please acknowledge the receipt in the first section of this brochure.

/ Issued badges must be worn in a visible place.

/ At the end of your stay please check out at reception or to your Fronius contact person. Return all badges, keys, etc..

/ Badges and keys are not to be handed over to other persons. A loss has to be reported to your contact person at once.

NOTES ON CORPORATE PROTECTION

/ Filming and taking pictures is not allowed without permission.

/ Use of mobile phones in designated areas is prohibited.

/ Electronical devices must not be connected to our company LAN without authorization.

/ Outdoor areas and sensitive indoor areas are monitored by CCTV.

NOTES FOR YOUR SAFETY

/ Personal protective equipment (PPE) must be worn in many areas of our site. For your own safety you must wear the appropriate safety equipment when entering these areas. If you do not have the required PPE please inform your Fronius contact person.

/ Electromagnetic fields are present in certain areas. The access to these areas is forbidden to persons with pace-makers or other implants.

/ Pay attention to our internal traffic, especially on our logistic paths and in our outdoor areas. Our industrial trucks are powered electrically, therefore difficult to hear and have priority over other road users.
